

EcoGreen™ Synthetic Landscape Turf Specifications

EcoGreen™ Turf is engineered with the most stable triple-backing and utilizes the world’s highest quality Thiolon® synthetic turf yarn fibers, resisting fading, stretching and distortion. Below are the specifications of the EcoGreen Turf Landscaping products, available in either our EcoGreen Turf Lawn or EcoGreen Turf Estate products. Either product will provide a minimum of 8 years of service, lasting up to 20 years under light use, 10-15 years under moderate use.
